W. R. WATSON, R.A., LL.B., BOY WONDER, AT UNITED CHURCH SUNDAY, JUNE 25th

At the evening service on Sunday next, June 25th, the congregation of the Blairmore United Church is to have the privilege of hearing a young man, whose life has been a triumph over handicaps.

Born without use of his arms, "Bill" has developed the use of his feet, so that they now take the place of a much needed pair of hands, and he feeds himself, shaves himself and writes with a more convenient method, his feet.

At the age of 22, after entering university, he faced the necessity of writing, and so used a pencil between his teeth. Graduating both in arts and law, "Bill" then had to face the world, equipped with a good education, but with doors closed to any position. He applied himself to vocal training, and achieved a decided success when last year he won the gold medal for tenor solo in the Edmonton musical festival. Then a brilliant idea came to birth. He decided to tell his story to the world through the medium of an autobiography, which he entitled "My Desire," and through its sale, not only provided for his living, but is establishing vocational schools for handicapped children. It's a great story. Come along on Sunday and hear him. The young people especially are cordially invited to meet Bill. Bill will speak to the congregation, and will sing.

PROGRAMME-ARRANGED FOR DOMINION DAY

At a meeting of the Blairmore Amateur Athletic Association, held at the Greenhill hotel last night, the programme of events for the big July 1st field day was arranged.

The football tournament will start at 10 a.m., Hillcrest having been drawn to meet Blairmore in the opener. The second round will be Bellevue-Corbin at 1:30, the winners of the two events to play off at 6:50.

The first round of softball will be the ladies, Pincher, Wallace-Impe versus Blairmore at 11 a.m. The third round, Teeco Adams Lethbridge versus Blairmore Colleens at 2:50, and the second round, men, at 1:30.

The secretary announced that \$5.00 of the \$10 forwarded to Mr. Bellamy had been refunded.

Action was passed, offering refreshment concession to the unemployed. In the event of their refusal to accept the offer, the United Church Ladies' Aid to be given second choice, and the Softball Club third choice.

Mr. Chappell drew to the attention of the meeting a slight error occurring in the large poster announcements. Instead of juniors under 18 for the bicycle race, should have read "Juniors under 19."

Additional committees included: Trono, Lewis and Bebe, time-keepers; Morgan, Knight, J. Bruhett, J. H. McLean and G. E. Cruickshank, judges; Congdon, official surveyor; Roddy Jamieson, chief dressing room steward; Marshall Hamilton, marshal; W. Fisher, D. Kemp, H. Manson, M. G. Rhyas, J. Jenkins and G. Sangster, track stewards; P. C. Montalbet, field secretary, with D. McPherson as assistant; W. H. Chappell, referee in chief; G. S. Bannan, amateur observer; Rudi, Howe and Milne, football committee; S. McDowell and Roland Pinkney, softball committee.

The "Billy Royle Challenge Cup" for two- and a half-mile marathon, was on exhibition at the meeting and looked like a tempting trophy.

A number of communications received, included one from the secretary of the Michel-Natal baseball club. Secretary advised Mr. Pokorny that baseball was not included in the programme. Other communications asked as to qualifications necessary to compete, and were advised to effect that British Columbia amateur standing would cover. British Columbia

competitors must be in possession of A.A.U. of G. cards.

Mr. Boyle will operate jingle board at the grounds during July 1st, and at the Columbus hall on the nights of June 30th and July 1st. House-House will also be operated.

S. McDowell was given charge of the ticket-selling campaign.

Prizes will be presented by President Pinkney on the evening of July 1st, and arrangements are being made to have the value orders filled at local stores that evening, if so desired.

Quite a number of entries have been received to date for the five-mile and 2½-mile marathons.

All entries should be made to Mr. P. C. Montalbet, or the general secretary, Mr. Bannan.

Programmes will be off the press about Tuesday next, and the programme in full will appear in next Thursday's Enterprise.

FERNIE MINES MAY RESUME OPERATIONS

FERNIE, June 20.—Through the efforts of Hon. H. H. Stevens, minister of trade and commerce, and co-operation of D. C. Coleman, vice-president of western lines, Canadian Pacific Railway, and officials of the Crows' Nest Pass Coal Company, an agreement to open the mines was arrived at after an all-day session, yesterday.

After a complete and exhaustive study of the situation, D. C. Coleman agreed to provide a substantial order, which, together with new business which it was disclosed was available from other sources, would create a background of approximately 125,000 tons a year and the coal company representatives agreed under these conditions to reopen the mines. By the continuous efforts of Mr. Stevens, extending over a number of months, culminating in the conference held here Monday, concentrated operations will be resumed at Coal Creek, thus giving work to at least a portion of the population of Fernie.

Employment will be given to about 300 men working half-time, or 160 working full time. While this will not bring operations back to where they were some years ago, it is now assured that Coal Creek and Fernie will not be abandoned. Operations will be concentrated for the present to No. 1 east mine, dismantling of which was halted some weeks ago, pending the result of yesterday's conference.

The conference, which was attended by W. R. Wilson, president of the Crows' Nest Pass Coal company, Vancouver; D. C. Coleman, vice-president western lines, C.P.R.; Charles Bocking, president of Granby Consolidated and director of Crows' Nest Pass Coal company; F. G. Neate, secretary Dominion Fuel Board, Ottawa; James Dickinson, chief inspector of mines, Victoria; Robert Dunn, deputy minister of mines, Victoria; James T. Maher, representing Great Northern Railway, and director Crows' Nest Pass Coal company; St. Paul, and Hartley Wilson, manager of Crows' Nest Pass Coal company; T. H. Cox, Dr. J. Ewart Gee, E. K. Stewart, of Fernie Board of Trade, and Thomas Uphill, M.L.A., of Fernie; G. E. Saunders, Crows' Nest Pass Coal company salesman, was a lengthy and difficult one and lasted the day.

All expressed very great satisfaction with the good spirit that prevailed. In the meeting it soon became obvious that the pointed issue was whether or not it was possible to provide some fixed quantity of coal in the way of a definite order, which would warrant the company in reopening the mines.

Quite a number of members of the Knights of Pythias order intend visiting Calgary on Saturday to meet and hear their supreme chancellor.

DOUBLE BILL FOR BARGAIN NIGHTS AT COLE'S

7,500 IN CAST

"Rackety Rax" is a screaming succession of a thousand laughs built up on the introduction of wrestlers, boxers, gorillas, mugs, tenderloin tenses, Broadway bands, chorus girls and all other denizens of the sporting world into the atmosphere of college life.

The cast, presenting some of Hollywood's leading comedians, includes Arthur Pierson, Allan Dinehart, Allen Jenkins, Vince Barnett, Marjorie Bebe, Esther Howard, Ivan Linow, Stanley Fields and Ward Bond.

Here's by far the funniest football and college picture ever made.

Come and see yourself to a fare-thee-well at "Rackety Rax" at Cole's theatre starting Monday next.

The second feature, with John Boles singing along and Joan Bennett said to reveal new and surprising talents as a brilliant comedienne, "Careless Lady" promises to be popular among local fun-lovers when it opens at Cole's theatre next Monday.

Kenneth MacKenna directed this comedy-romance for Fox Films and the cast includes Minna Gombell, Weldon Heyburn and Raul Roulien.

Very few from Blairmore went to Kamusack, Saskatchewan, to see the Doughkober nude parade.

At a meeting of the Bellevue school board last night, it was decided to reduce the mill rate from 30 to 24 mills.

Mr. and Mrs. J. D. Stubbs, of Mission City, B.C., announce the marriage of their daughter, Betty, to Mr. Robert G. Henderson, of Hillcrest, June 19, at Lethbridge, Alberta.

Blairmore, Alta., Thur., June 22, 1933

THE CANADIAN LEGION

Every ex-service man in Canada should be a member of the Canadian Legion. National in its embrace and Empire-wide in its associations, the Legion is an organization dedicated to Service—service on behalf of the returned soldiers and sailors of Canada, and service for Canada itself.

In all periods of stress, local disaffections are being exploited throughout the country. Mushroom organizations are springing up, prompted by the vapourings of blather-skites and old-time barrack-room lawyers. A few have merit, others are simply rackets with just sufficient ex-soldier atmosphere to get by. The first victims are the returned men who fall for that sort of thing, the next—the general public. With no record of achievement on behalf of the ex-troops behind them, and with no serious intention of getting down to the definite and concrete job of working for the ex-troops at all, the organizers of these disaffected groups devote more energy to snarling and yapping at those who are working for unity and harmony among the ex-service men than they ever expended against the Germans—if they ever saw a German.

When, on the Western Front, the commanders were all at sixes and sevens, the war was being lost. The moment they got together, the war was won.

So it is now. Let the ex-service men disperse into small groups, and they are finished. Their movement and their aspirations become as dead as King Henry's rabbit. Let them keep together, strengthen what they have, show a united front—and everything is theirs.—Legionaire.

FORBIDS TEACHERS

STOPPING CHILDREN

USING LEFT HAND

LONDON, June 17.—Kettering Education committee has forbidden its teachers to stop left-handed children from using the left hand for writing, and other manual work. This has been done in consequence of a report by Dr. C. B. Hogg, the medical officer whose attention has been directed to certain cases of stammering. The inquiries revealed that a number of these cases were left-handed children who had been converted to writing with their right hands.

Dr. Hogg cited facts showing that of 41 left-handed children who were compelled to use the right hand, 24 became stammerers. In a further case 12 right-handed children were trained to use the left hand, and within five months all developed a stammer.

PROTESTANT PROTECTIVE
ASSOCIATION INCORPORATED

The incorporation of The Protestant Protective Association is announced in the June 15th issue of the Alberta Gazette. The objects of the society are to inculcate principles of Protestantism, just laws and liberty; separation of church and state; patriotism; restrictive and selective immigration; freedom of speech; law and order; higher moral standard; freedom from mob violence; one national public school and one flag; one language (the English language), and to support the principles of the Protestant Church."

W. R. Watson, B.A., T. B., "Boy Wonder of Modern Times," who will speak and sing at the United Church, Blairmore, on Sunday evening next at 7:30 p.m. Gold Medalist at Edmonton Musical Festival, 1932.

RURAL FINANCES IN

GOOD SHAPE

Rural municipal finances in Alberta, all conditions and depressions to the contrary notwithstanding, are in a gratifying healthy state, according to Hon. R. G. Reid, Minister of Municipal Affairs, who has been looking into the general record of the rural municipalities for the last calendar year and the first half of the present year. A reduction of fully 50 per cent in the liabilities of the municipal districts is shown. Collections have been maintained to a surprisingly marked degree. Less than \$18,000 was the total bonded indebtedness of the rural municipalities as at December 31st last. Outstanding bank loans were about \$500,000, with ample security by way of uncollected taxes and other realizable assets.

The revenue collectable by the Department of Municipal Affairs for the fiscal year ended March 31, 1932, exceeded the estimated receipts for that year and also for the year before, while there was a saving in departmental expenditure of some \$10,000.

Did you ever hear of a good honest, hard-working and industrious man classing himself as a slave?

Word has just been received, stating that the famous "H. use of David" baseball team, featuring the "pepper game" and Grover Cleveland Alexander, major league pitcher, will play a picked team from Michel Natal at the Natal ball park on Thursday evening next, June 28th at 6:30. This is the real House of David's first appearance in The Pass.

DANCES PROHIBITED

AFTER 1 A.M.

An amendment to the Theatres Act has been made, to this effect: "In any entertainment hall where dances are held, dancing is prohibited and shall not be permitted between midnight on each Saturday and eight o'clock a.m. on the following Monday, and between one o'clock and eight o'clock on each Tuesday, Wednesday, Thursday and Friday mornings. Minors under eighteen years of age shall not be permitted to an entertainment hall where dances are held, unless accompanied by parent or guardian."

A freight train of concentrated power from Kimberley was routed via Crows' Nest, Calgary and Spenceville, B.C., instead of going direct west to Trail, during the week-end of the line west last week. It required three powerful locomotives to move the cars from Michel to Crows' Nest, two pulling and one pushing. It sounded like the roar of an artillery barrage when the three engines were laboring up the heavy grade of the loop at McGillivray.

Leading lights of the Canadian Liberal party will hold a conference September 4 to 9 at the Trinity College school, Port Hope, Ontario. The aim of the conference will be "to provide the fullest possible scope for that free and informed discussion which is an essential characteristic of liberalism wherever it may be found."

Louis Vermette, of Blairmore, and "Dad" Fyfe, of Coleman, are training hard for their fifty-yard dash, a feature attraction at the Field Day activities in Blairmore on July 1st. Vermette's weight is given as 142 pounds, and his age 72 years, 3 months, 4 days, six hours and fifteen and a half minutes, while Fyfe has taken an affidavit to the effect that he arrived in this world fourteen minutes and two seconds earlier and tips the scale at 148. Both are in excellent condition for the go, the exact time for which has not yet been decided on by the committee. Jack McDonald, of The Empire hotel, Coleman, has been engaged as trainer for Vermette, while Capt. Beebe and Tom Ede will see that Fyfe is fit for the fray.

SAVE

on the day
you buy it
and every day
you drive...

Chevrolet Master Six
Special Sedan, 1937, de-
scribed, fully equipped,
at factory, Chicago, Ill.
Freight paid, license extra.

WHEN you're admiring Chevrolet's Fisher No-Draft Ventilation, smart styling and other ultra-modern features—don't forget that here's a car that's economical on everything. It gets right down to this business of saving, on the very day you buy it—with the lowest purchase price of any six-cylinder closed car! And it keeps on, week after week, with one steady succession of important savings—as long as you drive the car: Fill up the fuel tank of your Chevrolet, and you won't have to fill

it again for hundreds of miles. Put five quarts of oil in the crankcase, and the chances are those five quarts will still be there when you change your oil again. As far as upkeep is concerned—Chevrolet has the best reputation of any low-priced car, for a long life of trouble-free performance. No other automobile can point to all these economies, and back them up with proof. Because no other is designed, engineered, built and priced to save you money in so many ways—and save you so much!

World's Future At Stake

The World Economic Conference now meeting in London constitutes what is probably the greatest assemblage of nations ever convened in the history of the world. In its opening address, Premier Ramsay MacDonald declared: "There is greater authority gathered in this hall than has perhaps ever been brought under one roof in the world's history."

Sixty-seven nations are represented in this momentous conference, or a larger number of separate national units than most people had knowledge existed. But it is not alone the size of the gathering that makes it outstanding in importance among all great world economic conferences; rather it is the fact that, for the first time since the Great War, it is composed of Government plenipotentiaries with the power to act.

As one well known economic authority points out, there have been many economic conferences in the past ten years, but they were composed of experts who were called upon merely to advise, but without authority to commit their Governments. The present conference is quite different; it is made up of representatives of the Governments of all nations, clothed with authority to reach definite agreements, thereby committing those Governments to exert their power and authority to secure ratification of such agreements by their various legislative bodies. There is, therefore, hope that definite action will result.

Whether such action does result depends, says the economic authority already quoted, upon the answer to a fundamental question. Will the Governments really turn their backs on the ideal of national self-sufficiency, and try to rebuild prosperity on a basis of interdependence and mutual benefit in international trade, even though that may involve a modification of their present national policies? If so, then there is no reason why the Conference should not be a great success. But, if not, there is little hope of preventing a drift into even greater depression, the ultimate outcome of which no man can foretell.

This is the crux of the whole matter, and discussing it in his opening address, Premier Ramsay MacDonald further said: "Have we come to deliberate and decide as though our respective nations were isolated units in the world? Then we shall fail and the world which looks upon us today with expectations will have to drain a bitter cup of disappointment. Have we come knowing that the permanent good of each is dependent upon the permanent good of all, and determined to co-operate in coming to agreements which will make a renewal of prosperity possible? Then we shall succeed, and expectations of the world will be justified. We must not fail."

And His Majesty the King in opening the conference sounded the keynote when in a stirring appeal he said: "In the face of a crisis which all realize and acknowledge, I appeal to you to co-operate for the sake of the ultimate good of the whole world. It cannot be beyond the powers of man so to use the vast resources of the world as to insure the material progress of civilization."

Surely it is inconceivable that the leading statesmen of the world, men clothed with all the responsibilities of government and whose very positions have made them fully cognizant of the underlying and fundamental causes of the world's present economic sickness, will be so nationally selfish, so neglectful of their own and their countries' responsibilities to the world at large, as to take such irreconcilable attitudes that the success of the conference will be wrecked.

President Roosevelt in his stirring pre-conference appeal to the sovereign heads of all nations stressed the terrible responsibility that would rest on any nation, or group of nations, which stood out against the rest of the world in their insistence upon narrow nationalistic and purely selfish policies. He realized, as Premier Ramsay MacDonald realizes, and as all sane and sensible people must realize, that a purely nationalistic economic policy in this modern world is one which by impoverishing other nations, impoverishes those who pursue it. No nation can permanently enrich itself at the expense of others. Mutual enrichment is a condition of individual enrichment.

To quote Premier Ramsay MacDonald once again: "Nationalism in the sphere of politics may be essential to human freedom. Self-sufficient nationalism in economics is the death knell of advancing prosperity. The nearer we can make the world an economic unit the better will it be for each nation. In any event, international co-operation is our best way to national recovery, and the nation which looks after itself in an international frame of mind will not only lead the world in enlightenment but in well-being."

Narrow nationalism must go. If it does not, the very nations which persist in it will themselves go—go down in the great debris of a destroyed civilization. The present World Economic Conference is a turning point in the life of the present generation. The hope and prayer of the teeming masses of the world's population is that their leaders will rise to the occasion, and courageously and energetically take the right road.

New Canadians

Education Necessary In Order That They Should Know Something About Canada

"It is too bad the government doesn't look into this matter. When you make application for naturalization papers, they should give you some literature so that you would know something about Canada."

Judge F. A. G. Ouseley, hearing applications for naturalization in district court, made this observation. He regretted that something was not being done to help new Canadians secure their citizenship papers.

London will start its slum clearance shortly.

Bankruptcies in Egypt number about one-third those of a year ago.

Brown Root Rot

Disease Affects Clover In Alberta and Saskatchewan Areas

Brown root rot has been observed on sweet clover, alfalfa and common clover growing in the southern and central parts of Alberta and Saskatchewan, as far north as Prince Albert in the latter province, and Athabasca and Beaveridge in Alberta. The fungus is native and apparently abundant in the cultivated black soils of the prairie area mentioned. The disease has not been reported as occurring elsewhere in Canada, or in foreign countries. Dominion Laboratory, Edmonton.

Soviet heads will send out at least 15 expeditions to backward races in Russia to collect data from which alphabets will be prepared.

Nervous—Could Not Sleep Tired Out All The Time

Mrs. George Scribner, Naurigowak, N.B. writes:—"I was so very nervous I could not sleep at night, and felt tired out all the time."

A neighbor told me about Milburn's Heart and Nerve Pills, and as she was using them at that time she gave me some to try. I found they were doing me so much good I procured two boxes and they proved of wonderful help to me."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Freight Rate On Butter

Moved Made By Western Provinces For Better Consideration

Joint action on the part of the Provincial dairy associations of Manitoba, Saskatchewan and Alberta, will likely be taken shortly to obtain a reduction in the freight rate on butter shipments from the prairie to Vancouver and Eastern Canada.

The move follows upon the rejection by the board of railway commissioners of an application for a reduction in the freight rate on butter shipments from the prairies to Vancouver and to Eastern Canada. Freight rates on butter are the same now as they were when the product was selling for 40 cents per pound.

Saskatchewan dairy representatives have already communicated with officials of the two sister provinces with a view to holding a meeting and planning a joint appeal to the board of railway commissioners for a rehearing of the case.

FAT MAN LOSES 63 lbs.

Kruschen and Walking

Overweight men who want to lose a few pounds can have the benefit of this man's experiences. He gives them to us for publication:

"In a little over twelve months I have reduced my weight from 227 lbs. to 164 lbs., by taking a dose of Kruschen Salts every morning for six months and taking walking exercise every day. This remarkable achievement is all the more interesting when one considers that I did not resort to any form of dieting."

You can take off fat with Kruschen Salts if you will take one-half teaspoonful of hot water every morning before breakfast, modify your diet, and exercise regularly.

While you are losing fat you will be gaining in energy—in endurance—in ambition. The old chair won't hold you any more—you'll want to be up and doing—you'll enjoy work and active recreation and you'll sleep like a top. You'll lose fat, and probably live years longer.

Takes Opposite View

French Academy—Thinks Ships Should Be Called "He"

Trepanning on the domain of the Académie Française, the Académie de Marine has ventured to tackle a grammatical problem. It relates to the much-vexed question of the sex of ships, writes the Paris coverage.

In England, where people do not have to worry about the gender of inanimate objects, it is nevertheless firmly established that ships have a right to the feminine pronoun. French, who are much too logical to indulge in such persnickiness, take the opposite view on the ground that the words which mean ship—"navire," "vaisseau," "bâtiment"—are masculine.

But, while it may be perfectly satisfactory to talk about "le navire," it sounds very odd to speak of "le Normandie" or "le République" when a vessel happened to have a feminine noun for a name.

The Académie de Marine therefore demands that the present practice should be placed before feminine nouns in order that "outrages against grammar, good sense and euphony" may be avoided.

Dick Turpin's Coat

Money and Jewels Found Recently In Lining Of Old Garment

Money and jewelry have been found in the lining of a plum-colored velvet coat which belonged to Dick Turpin, the famous highwayman.

The coat was recently bought by Mr. Rutler of Cambridge, along with the mask, pistols and spurs which Dick Turpin left at the Three Tuns Inn, Cambridge, on Jan. 12, 1739, when he escaped from the Newgate runners. He never claimed them before he was hanged at York on April 10 of the same year, and they passed to an excise man, from whose great-grandson at Cardiff Mr. Rutler bought them for £50.

While Mr. Rutler was carrying the coat, a George I. half-crown, dated 1717, fell from the lining. Then the other articles were found, comprising: Six silver coins, two copper coins, a gold ring, two silver rings, and a pair of silver-gilt ear-rings.

Grows Larger In Canada

A new record for Loch Leven trout in Canada was established recently with the taking of one weighing 10 pounds 2 ounces in the Cypress Hills area, Saskatchewan, a weight several times that of the average for the species in Scotland, its original home.

Statistics and experience of the best Canadian farmers show that crop yields in Canada are, generally speaking, very much below the possible maximum.

Razor Blades FREE with POKER HANDS!

You can get these five keen, well-honed safety razor blades (fit any Gillette-type razor). Given free for just one complete set of Turret Poker Hands... any man would appreciate such a gift!

Mild, yet sweet and full of flavour—Turret Fine Cut is a particular favourite with men who "roll their own." A 20 cent package of this mellow Virginia Tobacco will make at least 50 cigarettes... in it are combined satisfaction and genuine economy.

It pays to "Roll Your Own" with

TURRET
FINE CUT
CIGARETTE TOBACCO
SAVE THE POKER HANDS

Would Only Benefit Few

Many People Would Suffer If Prices Unduly Increased

The United States and Europe are trying to combine so as to raise prices all round. If wheat were \$10 per bushel and everything else up in proportion, would the world be in any better position than if wheat were \$1 per bushel and everything else priced in proportion. If a man should die at seventy years of age and leave a wife fifty years of age with an income of \$500 a year how could she get along when increased prices for necessities came upon her?

The widows, and men who have retired because of age, because of sickness, women who have saved enough to live modestly, the great army of children who are unfit for work, etc. The rise in price of lumber might help the woodman, the increase in the price of steel might give the makers of steel and their pushers, but in going all around the social course it would crush perhaps as many as it would lift up. This is especially true of country villages and towns, where there are more people living on small incomes in proportion to population than in larger places. If we talk of a national fund to help these people with small incomes, we complete the circle and arrive at the very place from which we started. We might just as well leave things as they are and let old supply and demand do the regulating of prices.—Port Rowan News.

Wild Cattle In England

Unique Herd Maintained On One Of Oldest Estates

It may surprise many people to know that there are wild cattle in England, yet there is an authentic herd, not running wild, but living on the estate of one of England's oldest peers, Earl of Tankerville in Northumberland.

For centuries these animals have had their habitat on the Earl's wooded demesne of 700 acres, which is so stoutly enclosed by a stone wall that the breed has remained pure for upwards of five hundred years. There are just 44 of them, but as it costs quite a sum to feed and care for them without producing any return the Earl has been obliged to ask for some assistance in their maintenance. The Zoological Society has come forward and the preservation of this unique herd is assured.

These cattle are pure whites with red muzzles, and black tips to their upward tilted horns. They are smaller than ordinary cows, extremely shy despite the fact that nobody ever seeks to touch them, and are dangerous to strangers.

It is said they are descendants of the aurochs, primitive wild oxen, which were hunted in England by Roman soldiers when the Caesars held sway.—St. Thomas Times-Journal.

French Eat Less Bread

Bread-eating capacity of the French is steadily declining, says Edmund Chaut, president of the Touring Club of France. Once the world's champion bread-eaters with a daily per capita consumption of two pounds, the modern Frenchman consumes but one pound ten ounces, Mr. Chaut blames the decline on the war, during which, he says, his countrymen became tired of poor quality bread.

A man never gives much thought to the ups and downs of life until he strikes the down.

Wager Was Easily Won

New York Times Outwitted By Young Club Man

In the course of an argument among some of the younger members of the University Club, one of the group made an generalization that writing poetry was easy and that he, although God knows, no poet, could write a poem and get it printed. Moreover, he could get it printed in the New York Times. He had cash that said he could. Money to cover his wager bobbed up at once. Then with a little effort he wrote a poem—anyway, he wrote eight lines that had some rhymes. The incoherent Times came next. On that matter, he showed himself a young man of invention. First, he wrote a letter signed X.Y.Z. to the question-and-answer department of the paper's book section, asking if some reader could give the last four lines of the poem which began—and he quoted the first four lines of his poem. The Times ran that. He immediately replied, signing A.B.C., giving X.Y.Z. the last four lines of the poem. The Times, never suspecting, ran that. Then, after some mild grumbling about instant publication, he drew down his bet.—New Yorker.

Prize For Essay

Fellowship Amounting To \$1,000 Offered For Best Essay On Economic Problems

A graduate fellowship, amounting to \$1,000, is offered by the Royal Bank of Canada to the students of a Canadian university who writes the best essay on a Canadian economic problem.

The subjects for the papers to be submitted by March 1, 1934, are as follows: An analysis of Canadian industry. The restoration of international movements of capital as a basis for an increased volume of trade.

The discussion and results of the world economic conference. The future of the export trade in Canadian agriculture. Possible development of power-using industries in eastern Canada.

Have Helped Greatly

Many newspapers have drawn the contrast and commented on the talk about there being a depression while at the same time picture shows are crowded. Picture shows have been one of the valuable things of the depression era, giving the people a chance to direct their minds and thoughts to something other than themselves and their own troubles.

Power Of Imagination

"I'm shot," yelled a burglar when police cornered him in a New York grocery store. Amazed, the policemen, who had not fired a shot, watched him slump to the floor with what looked like blood covering his face. Drawing nearer, they guffawed. The blood was the yolk of an egg which had fallen on his head from a shelf.

May Not Affect Earth

Dr. Charles Abbot, the American astronomer, predicts that the sun will be colder for the next two years. This does not necessarily mean that the earth will have two cold years, as the temperature of the earth is affected by many influences besides solar radiation.

An engineer in Poland has invented a device for an anti-aircraft gun which will hit a machine at 12,000 feet.

Ten Thousand-Foot Tower

French Engineer Proposes To Erect Marvel In Paris

An amazing hollow concrete tower nearly half a mile high, with a spiral road leading to a vast superstructure consisting of a garage for 400 cars, a dancing pavilion, a 1,000-seat restaurant, sun-parlor, weather office, and finally a tall slim aerial lighthouse.

This is the breath-taking project of a famous French constructional engineer, Mr. Eugene Freyssinet.

He proposes this skyscraper marvel, which would completely dwarf the present Eiffel Tower, as an attraction for the world's exposition to be held in Paris in 1937.

Visitors would be able to drive their own cars to the clouds for lunch or dinner.

The spiral road would be four miles long and make thirty turns around the tower. It would be the only means of ascent or descent, for no lifts would be installed.

Mr. Freyssinet is ready to build the tower up to a height of 10,000 feet, or nearly two miles, if the world exposition will finance it.

He estimates the cost at about two million dollars.

"Don't you think it will be marvellous on a hot day to jump into a motor car and drive up into the clouds, from where you will have a magnificent panorama of the entire Paris region?" he said.

First Canadian Movie

Filmed Under Direction Of Canadian Social Hygiene Council

The first Canadian motion picture produced in Hollywood and the first Hollywood picture to have a premiere in Canada has been placed in circulation. It is "Damaged Lives," the problem play, filmed under direction of the Canadian Social Hygiene Council. In its first week in Toronto it attracted 25,000 persons.

The picture soon will be shown throughout the British Empire. It has been booked for screening in England under sponsorship of the ministry of health. Its producers regard the film as probably the most extensive piece of public health education ever undertaken by means of talking motion picture.

Easily Distracted

A family in Paradise, California, were at breakfast the other morning when they noticed a grown-up African lioness looking in the window. The Associated Press news item said that the family forgot breakfast. Some people allow anything to distract their attention.

Some people can't see what pleases those who mind their own business and live in living.

A memorial to Carl Benz, motor car inventor, was unveiled in Mannheim, Germany, recently.

Improves cooking

COOKERY PARCHMENT

Appelhof PAPER PRODUCTS

HAMILTON, ONTARIO

CANADA'S CASE IS PRESENTED AT CONFERENCE

London, Eng.—In precise terms Prime Minister R. B. Bennett submitted Canada's case before the world economic conference. He pressed for concerted international action to raise the world level of wholesale prices.

But this alone would not solve the immediate difficulties of the producers of primary products, he told the conference. The accumulated carry-over of 250,000,000 bushels of wheat could be dealt effectively with only by international agreement involving a possible reduction of acreage sown to wheat until the abnormal carry-over which continued to depress the market had been disposed of.

Prime Minister Bennett described as "most reassuring" the statement of Neville Chamberlain, Chancellor of the British Exchequer, that the world's greatest wheat-importing country recognized the necessity of such action.

The conference, however, was in substantial agreement, said Mr. Bennett, on these points:

- (1) The general level of wholesale prices must be raised.
- (2) An international monetary standard should be restored as soon as practicable.
- (3) Consistent with the national economic systems, the channels of trade must be cleared.

The real problem, Mr. Bennett declared, was how could these ends be achieved.

The Prime Minister opened his speech to the world economic conference by indicating how Canada, although relatively small in population, had achieved a position of world importance. In 1932 she attained fifth rank among the exporting countries of the world, her exports being exceeded only by those of the United Kingdom, the United States, Germany and France.

Canada therefore was deeply concerned with the outcome of the conference.

Canada was agreed, the Prime Minister continued, that the monetary and economic aspects of the depression were inseparably interwoven and that a solution must be sought by simultaneous action.

"On the monetary side we are wholeheartedly in agreement with the program outlined by the Chancellor of the Exchequer of the United Kingdom," said Mr. Bennett. "I wish, however, to stress a few points of his program which we believe should receive even greater emphasis than he gave to them."

"In the first place I wish to urge with all the power at my command that the two greatest trading and creditor nations represented at the conference should at the earliest possible moment reach agreement upon a de facto stabilization of their exchange rates.

"I am aware how exceedingly difficult this will be under existing conditions but it is clear that without such agreement this conference will fail in the purpose for which it is called. The United Kingdom and the United States must agree to stabilize their currencies in relation to each other and, if a common price-raising policy can be agreed upon, in relation to the gold franc."

"The ratios originally selected may be provisional, but they should represent so far as may be ascertainable the real and permanent value of the respective currencies as determined by the relative price structure and the balance of payments."

"Such a program could be progressively extended to the smaller countries."

"As one of the smaller countries whose economic life has been seriously affected by erratic fluctuations in the world's basic currencies, Canada will endeavor to maintain the value of its dollar on a stabilized basis in London and New York when these two centres agree to establish a stable relationship between their currencies."

Exchange stabilization was the immediate necessity, but the world level of wholesale prices must be raised by concerted international action, the Canadian Prime Minister declared.

Paying Visit To West

Ottawa, Ont.—Hector Charlesworth, chairman of the radio broadcasting commission, is leaving on a visit to western Canada to make a direct examination of the broadcasting situation for the commission, it was announced here.

W. N. N. 11 1939

Small European Nations Would Follow Mussolini

If Big Powers Do Not Find Solution To Economic Problem

London, Eng.—The small nations of Europe have turned long eyes toward Rome and a possible bloc under Benito Mussolini's dictatorship as the big powers, undecided over war debts and monetary stabilization, threatened progress of the world economic conference.

"Should United States, Great Britain and France fail to point the way out of the economic morass at the world economic conference," Emile Francqui, the veteran Belgian diplomat, told the Associated Press. "The small nations of Europe will cluster about one statesman capable of leadership—Mussolini."

"If Duce is fostering sensible ideas for united action while the great powers are talking about civilization dropping over the abyss, but doing nothing. The small nations, crying for leadership, will follow Mussolini."

Overland Rates For Ships

Apply For Hull Insurance On Ships For Voyage From Vancouver To Regina

Vancouver, B.C.—Marine insurance agents were nonplussed when asked for rates on hull insurance on M.S. Vancouver City for a voyage from Vancouver to Regina. No marine insurance company has overland rates for ships.

However, the matter was simplified when it was learned the Vancouver Merchants' exchange wanted protection for it for the "voyage." This was obtained when it was realized it was not a full-grown vessel that was going to cross the mountains.

The model is to go on exhibition at the World's Grain Show at Regina and the exchange sought protection for it for the "voyage." This was obtained when it was realized it was not a full-grown vessel that was going to cross the mountains.

Seeking Home In Canada

Baroness From Austria Wants To Settle In Dominion

Montreal, Que.—Eager to find a Canadian home for herself, her Austrian-born daughter and two children, the Baroness Von Ritschl will tour Canada within a week or so, she told newspapermen here as she boarded a Canadian National Railway train for New York. The baroness is well known as a distinguished painter in miniature under her maiden name of Lorna Burgyne.

An Englishwoman, Baroness Von Ritschl divides her time between her husband's Austrian estate and her native Devonshire. She and her husband have decided to settle in Canada and the tour of the Dominion is expected to find them a suitable home. The baroness hopes to found an association of Canadian miniature painters.

Pay Debts In Silver

Twenty Million Ounces Of Silver Received At Bombay

Washington.—Twenty million ounces of silver has been received at Bombay, India, by the United States as payment of the \$10,000,000 British war debt instalment.

Great Britain, however, is responsible for its delivery to United States.

The state department also disclosed that the federal assay office in New York had received 2,000,000 ounces of silver from Italy, meeting its partial payment of \$1,000,000.

The silver was received by the United States government at 50 cents an ounce, under the inflation law passed recently by the special session, authorizing Mr. Roosevelt to accept a maximum of \$200,000,000 in debt payments in silver.

Win Sweepstake

Ottawa, Ont.—Word of their drawing about \$20,000 in Canadian funds from a sweepstake conducted by the government of Liechtenstein, a principality in the mountains of central Europe, reached Harry Breakell and his wife here. The sweepstake ticket, on the English Derby, cost Breakell, who signed himself "Lucky," about \$1.50. He purchased the ticket from a chance acquaintance.

Better To Perspire

Chatham, Ont.—If you are too hot to perspire—it's asunstroke, according to Dr. W. A. Elgie here. No matter how hot the day, as long as humans perspire freely there is no danger of prostration from the heat.

MANY NATIONS ARE SUPPORTING TARIFF TRUCE

London, Eng.—The world economic conference is moving toward realities. More nations have joined the temporary tariff truce. Behind the scenes the pieces are shifting on the international chess board into new combinations; the gold countries of Europe are getting together.

Banking experts are grappling with currency stabilization, and the lobbies are full of gossip of bilateral trade agreements. Great Britain and the United States jointly call for reduction in excessive tariffs; in a world of high protection Holland raises a belated voice for wholesale tariff reductions.

The increase to 10 in the number of nations joining the temporary tariff truce was not the only bright factor. Not long after Prime Minister Ramsay MacDonald had announced adherence of the Netherlands, Roumania, Denmark and Finland, he called—and the plea was echoed by Secretary of State Cordell Hull, of the United States, and amplified by Maxim Litvinoff, of Russia—for world-wide agreement in the truce.

War debts were temporarily settled by the United States' acceptance of a payment of \$10,000,000 made by the United Kingdom in silver, and the atmosphere was brightened by President Roosevelt's invitation to Britain to send representatives for a conference on the debts, although the president made it plain only congress has power to make any revision.

War debts are barred from the agenda of the world conference but, following emphatic declarations by Britain, Italy, Germany, Poland, South Africa and other nations that final settlement of war debts is essential to world-wide recovery, the conference could not fail to have been affected by the pre-debt payment uncertainty.

The statements of policy given the conference by Neville Chamberlain, Chancellor of the Exchequer, and Secretary Hull, were in accord on a wide range of points, notably in an urgent demand for reduction of the excessive tariff barriers blocking world trade, and the United States delegation particularly welcomed the British program as brightening prospects for the conference's success.

Furthermore, it was authoritatively learned the conference of British, United States and French treasury and Central Bank experts which has been at grips with the troubled question of currency stabilization, saw much improved prospects of reaching an agreement on de facto stabilization.

Three figures dominated the conference scene as the nations, big and little, submitted plans, proposals and suggestions in the plenary session. They were Neville Chamberlain, in precise phrase advancing the British plan; Cordell Hull, in more general terms, pleading earnestly for international co-operation, and stocky Maxim Litvinoff, careless of the fate of capitalistic nations, yet offering a billion dollars' worth of orders—always conditional on the provision of satisfactory credits.

The British spokesman was em-

ON TRADE MISSION

Hon. Thomas L. Kennedy, Minister of Agriculture for Ontario, who has sailed for England to reorganize the Ontario office in London, and to lay the foundation of a greater overseas market trail between Great Britain and Ontario.

phatic that action must be taken simultaneously in the financial, monetary and economic spheres, although the United Kingdom "will spare neither goodwill nor determination in our efforts to secure success," he promised. Mr. Chamberlain saw three great pathways to a solution: 1. Final settlement of reparations and war debts. 2. Abrogation of controls on exchange movements, and resumption of international trading; 3. Co-ordination of production and marketing, removal of prohibitions and similar trade barriers, and reduction of excessive tariffs in order to promote a normal flow of international trade.

May Meet At Rome

Important Meeting Being Considered By Four Governments

London, Eng.—An important meeting of Prime Minister Ramsay MacDonald, Premier Mussolini, Premier Daladier and Chancellor Hitler in Rome at the end of June, is being considered by the four government chiefs, it was revealed recently.

Premier Mussolini, Italian quarters said, is anxious to initiate his four-power pact for European peace by a personal face-to-face interview with the other statesmen.

Regardless of whether the "Big Four" accedes to Rome's wishes, it is understood the first meeting under the four-power pact will be held in Rome before the Geneva disarmament debate resumes July 3rd.

Decreased Revenues

Ottawa, Ont.—Considerable reductions in Dominion revenue during the first two months of the present fiscal year (April and May), are shown in the figures released by the Department of National Revenue. The customs and excise revenue in the two months has dropped \$7,101,405, as compared with the corresponding months last year, and the income tax revenue has fallen \$7,057,437.

Wage Increase

New York.—Harvey S. Firestone announced that all his companies and ways through the United States would increase the pay of employees 10 per cent, effective June 15.

15,000 FRENCH VETERANS "INVADE" LONDON

The British capital woke quite early one morning recently to find 15,000 French soldiers "invading" the city. Fortunately for the sleepy Londoners, it was a peaceful invasion and the Foreign Office knew all about it. Here we saw some of the 15,000 French ex-servicemen of the "Croix de Feu" marching in procession to Whitehall and the Cenotaph.

Canada's Foreign-Born Population

Saskatchewan Has Largest Number Whose Parents Are Not British

Ottawa, Ont.—Out of a total population of 921,785 at the last census, Saskatchewan had 396,619 persons whose parents were foreign-born. Those with Canadian-born parents numbered 219,290, while 170,265 had Empire-born fathers and mothers, a report from the Dominion Bureau of Statistics says.

Ontario had the next largest number of residents with foreign-born parents, these totalling 369,208.

The offspring of parents both foreign born in the other provinces was: Alberta, 309,325; Manitoba, 239,781; British Columbia, 195,938; Quebec, 167,427; Nova Scotia, 13,957; New Brunswick, 7,331; Yukon and North West Territories, 1,281; and Prince Edward Island, 513.

Car Hints Runaway

Toronto, Ont.—With the use of his automobile H. Oakley stopped a runaway team, and prevented what threatened to be a serious accident. When the team bolted, Oakley raced after them, drew in front of them and slackened his speed until he felt the tongue of the wagon against his car. He continued to retard his pace until the horses were slowed to a walk.

BRITAIN MAKES PAYMENT TO U.S. ON WAR DEBT

London, Eng.—Payment of \$10,000,000 in silver on Great Britain's war debt obligation of \$75,500,000 due the United States was announced to the House of Commons by Neville Chamberlain, Chancellor of the Exchequer, in a statement which acknowledged the "debt, pending final settlement."

Simultaneously the Chancellor stated formal debt negotiations between Great Britain and United States would be started at Washington as soon as possible in accordance with President Roosevelt's reply to the British remittance.

"The United States accepted" the partial payment, the Chancellor declared, "without prejudicing the freedom of either government in subsequent discussions."

News of the arrangement was hailed by the American delegation to the world economic conference and the Chancellor with high hopes that it might open the way for genuine progress toward economic rehabilitation.

The partial payment, Mr. Chamberlain told an enthusiastically cheering house, will be made in silver at 50 cents a fine ounce and constitutes Great Britain's acknowledgment of her obligation to America under the war debt account.

Labor and Liberal spokesmen, applauding the arrangement, joined Mr. Chamberlain in praising President Roosevelt for his acceptance of the scheme of payment.

"The difficult and delicate problem has been adjusted," the Chancellor announced in revealing the results of several days' anxious negotiations between London and Washington.

"It is a good augury for the success of the world economic conference and may prove the first step toward complete and final settlement of the whole of the war debts."

The Chancellor revealed that the British Government had hoped it would be possible for United States to accede to a request that the payment of the June instalment be postponed pending discussion of the war debts as a whole.

"They (the British government) maintained this hope up to a very recent date," the Chancellor continued. "In the end it became clear that it could not be realized. They therefore had to decide upon their course of action in these circumstances as they found them."

The American president was congratulated by Sir Stafford Cripps, Labor spokesman, for "the realism with which he has faced the situation."

Sir Herbert Samuel, Liberal leader, expressed his "deep appreciation of President Roosevelt's action in acceding to the agreement, which was a profound relief to all."

It was indicated in the House of Commons that Great Britain's \$10,000,000 debt instalment actually cost her around \$7,000,000, inasmuch as it was tendered in silver at the rate of 50 cents an ounce, under which debt remittances were permitted under recent congress authorization up to \$200,000,000.

U. S. CHECKS UP ON THE WAR DEBT PAYMENTS

Washington.—Europe paid a little more than eight per cent. of the \$144,180,000 war debt instalments and other countries immediately fell into line behind the United Kingdom to seek a review of the debt agreements from President Roosevelt.

One after another, the diplomatic representatives of the debtor nations called at the state department to present the decisions of their governments; until finally the line up showed payments from five nations, defaults by five and probable defaults by three others. One nation alone—Finland—paid in full the instalment due.

In all, the payments—\$10,000,000 from Great Britain, about \$1,000,000 from Italy, a maximum of \$180,000 from Czechoslovakia, \$25,000 from Roumania and the full payment of \$148,592 from Finland—totalled \$11,353,592.

France, Poland, Belgium, Yugoslavia, and Lithuania defaulted. Similar action by Hungary, Latvia and Estonia was indicated.

Meanwhile, the debt controversy had its inevitable echo in congress, but this time it was a statement by Senator Borah, Idaho, Independent Republican, supporting President Roosevelt's action in receiving partial payments.

"If the economic conference breaks down it will be due to the attitude of the debtor nations," Borah said. "They seem determined to make the debt the whole thing."

"They may wreck the conference, and if they do, the economic misery and loss which will ensue will be far in excess of any benefit they might secure by cancellation of the debt."

Wheat Exports

Considerable Increase In Exports Shown Over Same Period Last Year

Ottawa, Ont.—The export of wheat in May totalled 21,464,848 bushels valued at \$13,694,791, according to a report issued by the Dominion Bureau of Statistics. This compares with 15,543,013 bushels valued at \$9,626,965 for the corresponding month last year, an increase in quantity of 5,921,835 bushels and an increase in value of \$4,067,826.

The export to the United Kingdom last month was 13,086,521 bushels valued at \$7,894,456, compared with 7,184,698 bushels at \$4,378,962 in May a year ago, an increase in quantity of 59 per cent, and in value of 80 per cent.

Party Includes Westerners

Number Going To England To Attend Oxford Group House Party

Montreal, Que.—Oxford-bound Canadians from Toronto, Winnipeg, Vancouver and Montreal in the Canadian Pacific liners, "Duchess of Richmond," and "Duchess of Athol," en route to take part in the first house party of the Oxford group since their return from North America, indicate the rapid growth of the group in Canada.

Sailing on the "Duchess of Athol" are a number of westerners who attended the Canadian house-party held at Chateau Frontenac, Quebec, before the British visitors embarked on the "Empress of Australia," with a number from Toronto and Montreal.

General Smuts Cheered

Given Rousing Reception By Delegates To Economic Conference

London, Eng.—General Smuts, who is Deputy Prime Minister of South Africa, was the only one of eight speakers to be cheered as he went to the rostrum in the world economic conference assembly hall.

There was a roar of applause as the gaunt old man was called upon by Prime Minister MacDonald and walked to the front of the meeting hall. He listened for a moment in bowed appreciation.

Despite his 63 years, General Smuts appeared fair-haired rather than grey, and his agile, vigorous figure. He flew here, 6,000 miles from South Africa.

The Long Trail

Spokane, Wash.—Stoddard King, humorist, newspaper columnist and author of "There's a Long, Long Trail," is dead, a victim of sleeping sickness. He was 48.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 580, or hand them in at The Enterprise office no later than Wednesday evenings.

Dr. Mackenzie, of Fernie, is relieving Dr. Reinhorn, of Bellevue, while the latter is on vacation.

C. Sartoris and Dr. Reinhorn will leave tomorrow for Europe, via Detroit, Chicago, Montreal and Quebec.

Dr. E. F. Stewart has been appointed by the town council to look after medical needs of the local unemployed.

C. J. Tompkins, after attending a Sun Life meeting in Montreal, decided to pay a visit to his old home and friends at Margaree, Nova Scotia.

At a mass meeting at Coleman on Tuesday night, Bill Knight reported on his recent interview with Premier Brownlee, and the slave camp situation was discussed.

The Coleman opera house, which has recently been re-modelled and renovated, is to be reopened by a big dance tomorrow night, under auspices of the Citizens' League.

Mr. and Mrs. T. Gushul were visitors to Lethbridge on Saturday last, accompanied by their son and daughter, Evan and Nadia, and Sandy Ferguson. Evan Gushul and Sandy Ferguson were writing musical theory at Lethbridge.

Miss Gertrude Oliver returned to Blairmore by Monday night's train from her home in Tatamagouche, Nova Scotia, where she has resided since going east from here several years ago. Miss Oliver will make her home here with her brother David.

A garden party will be held on the lawn of Mrs. L. P. Robert, on Wednesday, June 28th, from 3 to 6 p.m., and from 7 to 10 p.m., under the auspices of Blairmore United Church Ladies' Aid. Ice cream, strawberries and tea will be served. Everybody welcome.

The ratepayers of Blairmore should demand from the Town Council a statement showing exactly what it has cost them to depose the former secretary-treasurer and other officials, and reinstate the present staff of officials. This workers' council promised to save the ratepayers money.

In the criminal assizes at Lethbridge on Monday, before Mr. Justice Simmons, Blairmore's former secretary-treasurer pleaded guilty to having converted the sum of \$173.60 town funds to his own use, and was given one year's suspended sentence. S. G. Bannan represented the accused, while J. D. Matheson, K.C., of Macleod, prosecuted.

Mr. and Mrs. Harry Burns, of Nelson, are renewing old acquaintances in Blairmore, and are guests of Mr. and Mrs. J. E. Gillis. Mr. Burns proceeded to Calgary to spend a couple of days and will return this week end. Mr. Burns was a former manager for the McLaren Lumber Co. here, later moving to Canal Flats, where he superintended lumbering operations for the C.P.R.

Some people are wondering as to why the entrance to the town office and council chamber is locked during a council session. Well, there are two possible reasons, anyway. One is that the "desirables" are already in, and the "undesirables" are locked out; the other very good reason is "that language such as used at Monday night's meeting of the council is not fit for respectable people to listen to. If such practice is allowed to continue, the police should see to it that the public be kept outside of hearing distance."

COLEMAN EXPECTS BIG CROWD AT CHAMPIONSHIP WRESTLING BOUT

The Canadian Legion, of Coleman, championship wrestling bout, in which Mike Bilinsky, Ukrainian middle-weight champion of Canada, and Albert Dietrich, champion of Alberta, will be the head-liners on Friday night, June 23, is creating keen interest among sport fans of the Pass towns of Alberta and B.C.

In addition to the main bout, the semi-final is six rounds boxing match between Mushy Colkan, welter-weight Italian champion, of Calgary, and Jim Stanmore, of Lethbridge. The preliminary of four rounds boxing between Paul Tarbay, light-weight champion of Regina, and John Campbell, who, as his name indicates, is from north of the Tweed.

Coleman Citizens Band will keep the crowd entertained in the intervals with their spirited music under Bandmaster Alex. Easton. The big show commences at 8.30, and the main bout is timed for 10 p.m. Coleman arena rink is the place.

General admission 50c, ringside 75c. Phone 209 for reservations.

JUDGMENT IS UPHELD BY THE APPEAL COURT

In sustaining sentence to jail terms on three men accused of assault the court of appeals in Calgary upheld the judgment of Mr. Justice Ives in which his lordship declared the Crows' Nest Pass to be the worst trouble zone in the province.

The appeal was that by Frank Grena, Joe Antusak and Frank Harich, charged with assaulting and occasioning bodily harm to Martin Zubersky, Blairmore, during a New Year's Eve party in the early hours of New Year's Day at Zubersky's house. Evidence disclosed that the accused went to Zubersky's home to look for a friend, being afraid he might be beaten up. They were each sentenced to a year, and appealed on the ground that they were attacked while peaceably visiting Zubersky's house, and that if any force was used only such force was used as was reasonable in self-defence.

The Enterprise has always been a booster for the support of home industry. You may not have noticed the additional terms announced in the imprint, which reads this way: "Simply to encourage home industry, we are prepared to publish birth notices free of charge, and further will give \$5.00 to the parents of twins, provided they are bonafide paid-up subscribers to The Enterprise, effective as from June the second, 1933."

IN MEMORIAM

To the loving memory of Thomas Fisher, born in Kilsyth, Stirlingshire, Scotland, August 21, 1863; died in Frank, Alberta, June 25, 1933; aged 64 years.

"Gone, but not forgotten." Ever remembered by wife and family.

IN MEMORIAM

In loving memory of our dear mother, Mrs. Amelia Miro, who died May the 28th, 1929.

"Four years have passed since that sad day The one we loved was called away. God took her home—it was his will; But in our hearts she liveth still." Ever remembered by her children, Mrs. R. Bielli, Mrs. L. Gomez, Mary and Charles.
